

## July 2021

### **COVID-19 Vaccine Update**

Clark Nursing and Rehab has now completed three vaccine clinics partnered with CVS. Through an agreement with an outside pharmacy completed a fourth clinic on June 26th and will have a fifth clinic to complete the second shot. The fifth clinic has not yet been scheduled, please watch for notification on the dates and times. We were pleased with the response and the number of staff and residents who received the vaccine. Currently 89% of our residents have been vaccinated and 77% of staff have had both shots. Should you have a question regarding the vaccination process, please speak with your nurse or Social Worker.

### **Resident/Staff COVID-19 Testing**

We currently COVID free and are not doing weekly testing of our residents. Testing continues for new admissions who have not been vaccinated. Unvaccinated staff continue to be tested weekly. Should a resident/patient of staff member test positive the center will once again begin weekly testing of. We will keep you updated either by phone, on our Facebook page, and on this website.

### **Our Commitment**

Resident and Staff wellness and safety is our top priority. We continue to follow all Infection Prevention and Control guidelines and recommendations by the NJ DOH and Local Board of Health to maintain our current state of wellness. We are truly dedicated to the health and well-being of our residents and staff.

*Thank you for your patience and cooperation during this difficult time. If you have any questions or concerns please do not hesitate to contact us.*
