

COVID-19 Information

January 2021

Happy New Year!

COVID-19 Vaccination Update

Clark Nursing and Rehab has partnered with CVS to vaccinate residents and staff willing to take the vaccination. We will have our vaccination clinic on January 8, 2021 between the hours of 10:00 am and 4:00 pm. The consent forms were sent out. If you have declined the vaccine for your loved one but have decided that you would like have them vaccinated please contact Nursing or Social Work. Our second round of shots will be given on January 29, 2021.

Resident Update

All Residents are doing well and remain COVID free. Staff continues to monitor all residents due to a COVID-19 exposure by a direct care staff member. Resident COVID Testing continues weekly. Residents are retested each time an employee tests positive for COVID-19

Staff Update

Currently all of our staff is once again COVID free and we will continue with weekly testing.

Resident/Staff COVID-19 Testing

Clark is following the NJ Department of Health (NJ DOH) and current Center for Disease Control (CDC) guidelines and are conducting weekly testing for residents and staff.

Visitation

Outdoor Visitations will resume again on Wednesday January 6, 2021, weather permitting. Social Services will be making phone calls early next week to set up appointments.

Phased Reopening

Recently, The NJ DOH issued Executive Directive No. 20-026 establishing mandatory procedures that long term care facilities must meet in order to safely reopen to all visitors and resume normal operations. The phased reopening is based on the outbreak status of a facility, its ability to meet criteria, including but not limited to testing of Staff and Residents, infection control standards, and adequate Staffing and Personnel Protective Equipment (PPE) following the State's reopening plan. When facilities are outbreak free, they may restore services for Residents, in phases, starting with indoor visitation and the restart of normal activities.

Our Commitment

Resident and Staff wellness and safety is our top priority. We continue to follow all Infection Prevention and Control guidelines and recommendations by the NJ DOH and Local Board of Health to maintain our current state of wellness. We are truly dedicated to the health and well-being of our residents and staff.

Thank you for your patience and cooperation during this difficult time. If you have any questions or concerns please do not hesitate to contact us.

Happy New Year, hoping for a better year in 2021.
